WEB DEVELOPER

SUMMARY

Detail-oriented web developer with a strong command over Linux and databases, seeking opportunities to leverage technical skills in HTML5, CSS (including Bootstrap and Tailwind.css), JavaScript (including jQuery and GSAP), WordPress, React.js, Redux, Node.js, Express, PHP, MySQL, PostgreSQL, and Postman. Passionate about developing and maintaining reliable, scalable web solutions.

SKILLS

- Proficient in Linux system administration, including command-line utilities
 - Strong understanding of relational databases (e.g., MySQL, PostgreSQL) and NoSQL databases (e.g., MongoDB)
 - Basic understanding of networking concepts and protocols
 - Proficient in version control systems, particularly Git, for managing code repositories, including branching, merging, and resolving conflicts.
 - Proficiency in web development technologies:
 - HTML, CSS, JavaScript, WordPress
 - React.js and Redux for building modern, interactive user interfaces
 - Bootstrap, Tailwind CSS, SCSS for styling
 - PHP for server-side scripting and backend development
 - Node.js and Express for server-side JavaScript development
 - Excellent problem-solving skills and ability to troubleshoot issues independently
 - Quick learner with a proactive attitude towards adopting new technologies and methodologies
 - Adaptability/Flexibility, Time Management, Attention to Detail
 - Effective communication and collaboration skills, with a proven ability to work in cross-functional teams
-
